

KAPPA

PURE ENERGY.

41ZERO42

La semplicità di un codice d'avviamento postale per identificare un luogo d'appartenenza e tutti i valori che ad esso sono legati. Uno spazio creativo, che mira all'eccellenza del materiale ceramico, all'importanza della sua ricerca e ai suoi contenuti. Un linguaggio che prende forma dalla contaminazione di diversi elementi provenienti da svariati contesti. Elementi dal sapore industriale accostati ad altri dal carattere fortemente artigianale, molteplicità di linguaggi interconnessi danno vita a nuove vesti per la progettazione architettonica. Per noi, un'idea o un progetto devono necessariamente trasmettere e veicolare un contenuto, una storia. Così le storie - che ci emozionano, appassionano e che cerchiamo di raccontarvi divengono la linfa della nostra curiosità e creatività. Chiamateci cantastorie, non ci offenderemo.

The simplicity of a ZIP code to identify our roots and all the values related to them. A creative space, which aims for excellence in the ceramic field and that values the importance of its research and its themes. A language that is shaped and contaminated by many different contexts. Industrial and artisanal elements which are mixed despite their different nature: a multiplicity of interconnected codes giving life to new ways in architectural design. For us, an idea or a project must convey a content, a story. So, stories - which thrill us, fascinate us and which we try to tell you - are turned into the lifeblood of our curiosity and creativity. Call us storytellers, we will not be offended.

KAPPA

Kappa è una collezione da rivestimento composta da 12 colori solidi e brillanti. Unico formato 5x20 e una finitura lucida caratterizzata da una superficie che ricorda le irregolarità che contraddistinguono i tipici prodotti artigianali.

A questo abbiamo aggiunto un elemento tridimensionale, Raw, che ricorda le tipiche piastrelle delle facciate esterne dei palazzi anni 70, ma reinterpretata con una texture granulosa bianca opaca, come l'intonaco delle masserie pugliesi.

Per creare un twist divertente sono state inserite cinque matite: tre colorate lucide, una in terracotta e una in legno naturale; elementi decorativi fortemente utilizzati negli anni passati. Le possibilità di combinazione sono moltissime, dalle campiture monocromatiche, fino all'utilizzo di più colori per creare pattern unici. Per questo motivo abbiamo ideato un simulatore sul nostro sito web con 16 schemi di posa personalizzabili cromaticamente. Abbiamo sempre creduto nel colore e nella forza che questo trasmette allo spazio dell'abitare. Kappa è pura energia.

Kappa is a wall tile collection composed of 12 vibrant and solid colors. It comes specifically in size 5x20 2"x8" with a polished finish. Its surface is characterized by unique irregularities of handcrafted products. Joining this series is a tridimensional element: Raw which brings to mind the typical tiles of external facades of the buildings in the 70's reinterpeted with an opaque white granuled surface like the plaster of the Apuglian farms. Five very interesting pencils were used to create a fun twist: three glossy colored, one in terracotta and one in natural wood; decorative elements that were very characteristic of the past years. The possibility of different combinations is endless. From monochrome backgrounds to multiple colors to create unique patterns. This is why we have devised a simulator on our website with 16 chromatically customizable laying models. We've always believed in the power of color and in the strength that it transmits to the living space. Kappa is pure energy.

Kappa è puro colore, ed è proprio il colore a cambiare le carte in tavola. Abbiamo voluto evidenziare questo aspetto studiando 8 situazioni differenti l'una dall'altra, ma le possibilità sono innumerevoli.

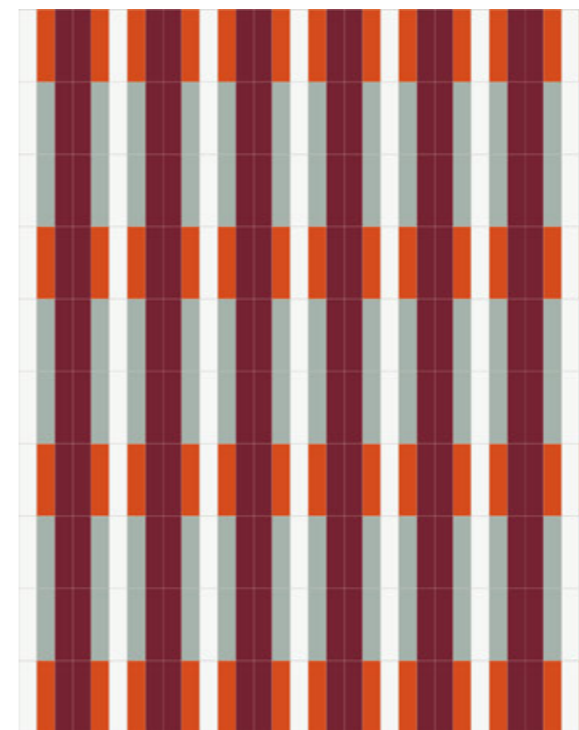

Kappa is pure color, and color is what turns the tables. We decided to stress this point by designing 8 different scenarios, but the possibilities are countless.

KAPPA CONFIGURATOR

Kappa è una collezione dalle infinite possibilità realizzative, abbiamo sviluppato un simulatore con 16 differenti schemi di posa, volutamente scelti a trama ripetibile per poter dimostrare come può cambiare la resa di un singolo pattern modificandone solo il colore del prodotto e dello stucco. Facilmente accessibile attraverso il nostro sito web, all'interno della collezione Kappa, oppure digitando su internet kappa.41zero42.com, si potrà personalizzare il modello selezionato, con conteggio finale automatico del numero di pezzi, scatole, metri quadrati e sfrido necessario a realizzare la propria composizione. Il conteggio sarà della metratura richiesta, avendo inserito precedentemente le dimensioni che si vogliono ottenere, ma l'area massima visualizzabile di posa sarà di 500x280 cm – base x altezza. Inoltre potrai visionare gli ultimi 41 schemi realizzati precedentemente.

Kappa is a collection with an infinite range of possibilities, that's why we have developed a simulator with 16 different laying patterns, deliberately chosen with repeatable patterns in order to demonstrate how the performance of a single pattern can be changed through the simple modification of the color of the product and the grout. You can easily access it through our website, as part of the Kappa 41 collection, or by typing kappa.41zero42.com on the internet. Thanks to the simulator, you can customize the selected model with an automatic final count of the number of pieces, boxes, square meters, and scrap needed to make your composition. The count will be of the required square footage, having previously entered the dimensions you want to obtain, but the maximum viewable area of laying will be 500x280 cm - base x height. Furthermore, you will be able to see the last 41 schemes previously realized.

KAPPA COMBINATION TIPS

Kappa si presta a molte combinazioni di posa. *Kappa opens the way to several laying combinations.*

TECHNICAL DETAILS

KAPPA

TECHNOLOGY MONOCOTTURA IN PASTA BIANCA - WHITE BODY SINGLE-FIRED WALL TILE

KAPPA FINISH LUCIDO - LUX / RAW FINISH OPACO - MATTE

SIZE 5x20

THICKNESS 8,5 MM

MATITA

LAVANDER - BERRY - ALOE FINISH LUCIDO - LUX

COTTO - WOOD FINISH OPACO - MATTE

SIZE 1,1x20

THICKNESS 11 MM

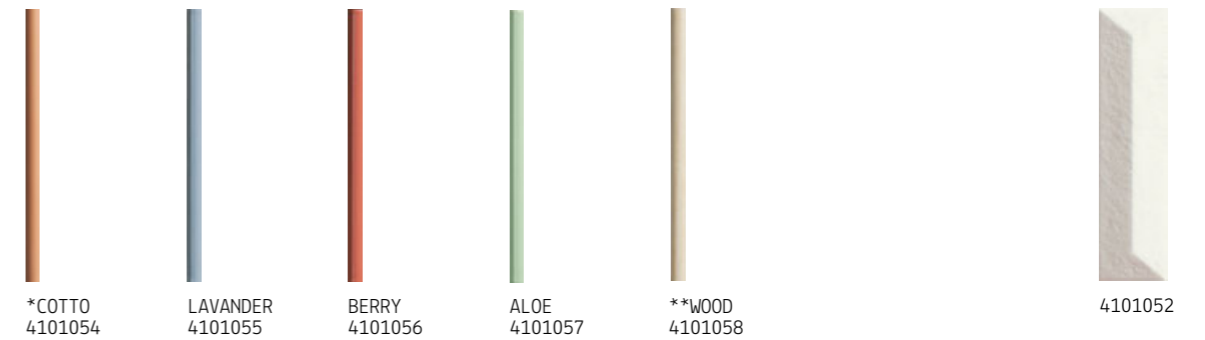

Al prodotto viene conferito un aspetto artigianale grazie a planarità variabile, superficie strutturata, stesura dello smalto non uniforme e piccole irregolarità dello smalto. Lo stesso calibro tra le varie referenze non è sempre garantito. Consigliamo una fuga di 2/3 mm adatta a prodotti naturali. I colori sono riconducibili alla scala cromatica NCS.

A handcrafted look is given to the product through variable flatness, structured surface, non-uniform coating of glaze and small irregularities of the glaze. The same caliber between tiles is not always guaranteed. We recommend a joint of 2/3 mm suitable for natural products. Colors are consistent with the NCS color scale.

KAPPA COLORS

MATITA

*IN TERRACOTTA NON SMALTATA CON UN PROTETTIVO APPLICATO - MADE OF UNGLAZED TERRACOTTA WITH AN APPLIED PROTECTION

**IN LEGNO NATURALE CON UN PROTETTIVO APPLICATO - MADE OF NATURAL WOOD WITH AN APPLIED PROTECTION

LA MATITA WOOD PUÒ ESSERE APPLICATA PER IL RIVESTIMENTO DI PARETI INTERNE, SIA IN SPAZI RESIDENZIALI CHE PUBBLICI, È SCONSIGLIATA PER ZONE A DIRETTO CONTATTO CON L'ACQUA: DOCCE, SAUNE, PARETI DI PISCINE ECC.

THE WOOD PENCIL CAN BE USED FOR INTERIOR WALLS IN BOTH RESIDENTIAL AND PUBLIC SPACES, IT IS NOT RECOMMENDED TO USE IT FOR AREAS IN DIRECT CONTACT WITH WATER: SHOWERS, SAUNAS, POOL WALLS ETC.

KAPPA GROUTS

KAPPA	colori stucchi consigliati advised grouts colors	colori NCS NCS color scale
MUSTARD	Kerakoll 30	NCS S 3560-Y
TANGERINE	Mapei 141 Caramel	NCS S 1040-Y40R

MUSK	Kerakoll 18	NCS S 4010-G10Y
WHITE	Kerakoll 02	NCS S 0300-N
RAW	Kerakoll 02	NCS S 0300-N

NEL CASO DI UN PATTERN CON PIÙ TINTE SI CONSIGLIA DI UTILIZZARE LO STUCCO IN TONO AL COLORE DI FONDO DOMINANTE.
IN CASE OF PATTERNS WITH MORE THAN ONE COLOR, IT IS RECOMMENDED TO USE A TONE-ON-TONE GROUT MATCHING THE DOMINANT BACKGROUND COLOR.

KAPPA LAYING INSTRUCTIONS

Prima di iniziare il processo di installazione, assicurarsi che la superficie di posa sia livellata e sia stata accuratamente pulita. Per una corretta installazione è essenziale l'utilizzo di adesivi conformi ed adeguati alla destinazione d'uso. Per installazioni in ambienti umidi, come bagni e docce, per evitare l'infiltrazione di acqua, assicurarsi di impermeabilizzare in modo corretto la superficie di posa, utilizzando prodotti specifici a tal fine. In corrispondenza di tagli, avere cura di sigillare la zona interessata con silicone, così da evitare ulteriori infiltrazioni di acqua.

Before starting the installation process, make sure that the surface is level and has been thoroughly cleaned. For proper installation, it is essential to use adhesives that are compliant and suitable for the intended purpose. For installations in humid environment, such as bathrooms and showers, it is highly recommended to properly waterproof the laying surface using specific products for this purpose to avoid any water infiltration. In case of cuts, take care in sealing the affected area with silicon so as to avoid any further water infiltration.
