How to fit: The specialist's advice

FITTING: Our pebbles are stuck on a mesh. Fit the sheets like regular tiles, next to each other using mortar. Put the sheets as close to each other as possible, make sure they are interlocking. Once fitted, press firmly on them to make them stick to the mortar and get a good levelling. Clean with warm water and a sponge.

JOINTING: The joints are to be done 24 hours after the fitting. Pour a fairly liquid grouting between the pebbles and spread it using a scraper. Wait for it to dry and clean the excess with warm water and a sponge. ■
