La ceramica, una scelta consapevole Ceramic is a mindful choice

È sicura per la salute

A differenza di altri materiali non contiene plastica, amianto e formaldeide e non rilascia nell'ambiente sostanze organiche pericolose.

È il massimo dell'igiene

Facile da pulire, non assorbe, non si macchia e resiste ai detergenti più aggressivi.

Non brucia

La ceramica è in classe A1 di resistenza al fuoco: non si infiamma e in caso di incendio non produce gas e fumi tossici.

Resiste a tutto

Non si usura per il calpestio, non si graffia, non si ammacca e il colore non si altera nemmeno se esposto ai raggi solari.

È versatile

Il design, le superfici, i formati della ceramica la rendono ideale per rivestire pareti e pavimenti di tutti gli ambienti. È un ottimo conduttore termico, perfetto per il riscaldamento a pavimento.

È ecologica

Tutte le fasi del ciclo di vita, dall'estrazione delle materie prime, al processo produttivo, fino allo smaltimento sono certificate dai più alti standard qualitativi della Comunità Europea.

It is safe for health

Unlike other materials, it does not contain plastic, asbestos and formaldehyde and does not emit hazardous organic substances into the environment.

It is maximum hygiene

Easy to clean, non-absorbent, stainproof and resistant to aggressive detergents.

Does not burn

Ceramic has a Class A1 reaction to fire: it does not ignite and in case of fire, does not give off smoke or toxic gases.

Resistant to everything

Does not wear down under foot traffic, does not scratch, does not stain, it does not dent and the colour does not change even when exposed to the sun's rays.

It is versatile

The design, surfaces, sizes of ceramic make it ideal for covering wall and floors in virtually any environment. It is an excellent thermal conductor, which makes it an ideal choice for underfloor heating.

It is eco-friendly

All stages of the life cycle, from raw material extraction, to processing and right up to disposal meet the highest European quality standards.

Le classement V-shade indique le niveau de mouvement chromatique au sein d'un produit. Il va de V0 à V4.

Die V-Shade-Einstufung zeigt das Abtönungsniveau des Produkts an, das zwischen V0 und V4 eingestuft wird.

La clasificación V-Shade indica el nivel de destonación del producto, clasificado de V0 a V4.

Согласно классификации V-Shade, указывающей на уровень цветовой неоднородности изделия, нашей плитке были присвоены значения от V0 до V4.

* Valore medio dei test condotti negli ultimi 24 mesi. Average rating of tests conducted during the last 24 months. Durchschnittswert der in den letzten 24 Monaten durchgeführten Tests. Valeur moyenne des essais menés au cours des 24 derniers mois. Valor medio de las pruebas llevadas a cabo en los últimos 24 meses. Среднее значение испытаний, проведенных в течение последних 24 месяцев.

** Per piastrelle rettangolari, che abbiano il lato maggiore L ≥ 60 cm, e rapporto tra i lati ≥ 3, la misurazione della ortogonalità deve venire condotta solo sul lato corto. For oblong tiles with L ≥ 60 cm and ratio length/width L/W ≥ 3, measurement of rectangularity only on short edges
