GREY

La sencillez de la piedra representada en un porcelánico técnico de altas prestaciones.

Gracias a la combinación aleatoria y multidireccionalidad de las piezas se consigue un gran efecto natural con un marcado dinamismo.

Deep represents the simplicity of stone, combined with the high performance of through-body porcelain tiles.

Thanks to the random patterns on the tiles and the fact that they can be laid in different directions, dynamic layouts can be achieved with a highly realistic appearance.

La simplicité de la pierre représentée avec un grès porcelainé technique haute performance.

La combinaison aléatoire et l'aspect multidirectionnel des pièces permettent d'obtenir un grand effet naturel avec un dynamisme affirmé.
